

Cessna Citation Bravo

Aeromil Pacific is pleased to offer Citation Bravo VH-XBP for sale. This aircraft is owned by a respected corporate entity and regularly operates WA to the east coast, and into regional areas. It has an excellent maintenance history and will be of interest to anyone looking for a quality light jet at a competitive price.

Aeromil Pacific (Cessna authorised dealership) sold the aircraft new and has retained association through re-sale to its current corporate owner.

The Citation Bravo is an extremely fuel efficient aircraft and together with a 1,700 nautical mile range provides tremendous capability for a light jet. The Citation Bravo also has excellent short runway capability and can be flown by a single pilot if required. VH-XBP is fitted with an optional gravel runway kit that allows operations into unimproved runways in remote parts of the country.

The Citation Bravo has a comfortable 7 passenger cabin, private toilet, refreshment centre and external / internal baggage compartments with ample baggage capacity for 7 suitcases along with golf clubs or skis.

The Citation Bravo is ideally suited to Australian conditions and has operating economics that are hard to beat.

Nick Jones, Director Aircraft Sales, Aeromil Pacific
