

# the Cessna Citation Mustang

**Citation Mustang** delivers exhilarating 340-knot speed. At just under 650km/h, the Mustang is significantly faster than old-technology turboprops. Its pure-jet performance will enable you to climb swiftly to 41,000 feet – far above most weather conditions. And it will give you the power to take off from just 947m of runway enabling you to go places that larger aircraft can't.
