corporatejetcharter

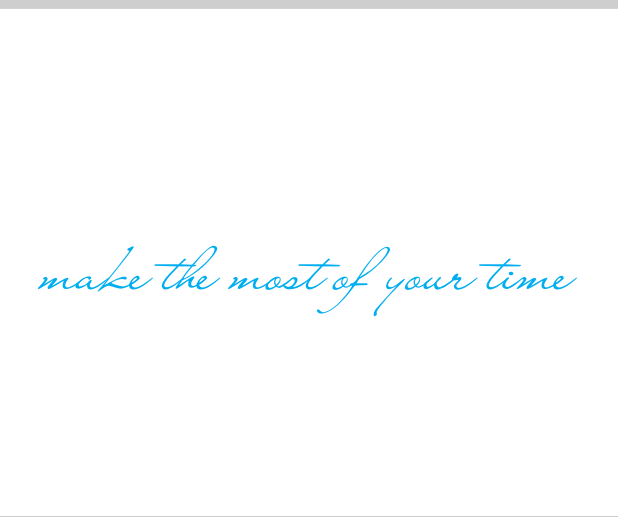

What is the cost of waiting to board an aircraft?

Time is money in the business world. Today's executives cannot afford to waste hours in check-in and boarding queues, security lines and be disrupted by unscheduled delays. By investing in corporate jet charter, companies boost productivity as they take advantage of every hour and create specialised itineraries that work for them.

Do commercial airlines service your destination?

Are your key meetings always in major cities? Corporate jet charter allows flexibility in travelling to destinations that commercial airline schedules do not service. Using corporate jet charter as a business tool allows your executives to fly directly to many local airports that are close to their final destination, minimising transfer and connection times and allowing the opportunity to visit multiple destinations.

make the most of your time

Do you need to discuss confidential information?

Corporate jet charter means privacy is assured when conducting confidential meetings and business discussions. Business jets provide a secure environment to work in comfort without the interruption of other passengers and maximise 'flying time' as 'business time'. We adhere to a strict policy of discretion ensuring confidentiality regarding your travel arrangements pre-flight, in transit and after your arrival.

Does an airline fly to where you want to go when you want to go?

Departure times are set by you. As a busy professional, you personalise your itinerary to suit your needs giving you greater flexibility that commercial airline travel cannot match. Flight Options will tailor each flight according to your objectives. This includes ground transfers and any other special requests to ensure your flight experience is seamless and meets the highest expectations.

Why Flight Options is your best option

Experience

Flight Options is part of the Aeromil Group of Companies with nearly 30 years of aviation experience. Aeromil Pacific is a full service aviation company specialising in jet sales, flight operations, maintenance, spare parts and support. Aeromil Pacific is the appointed Cessna Authorised Sales Representative (ASR) for the Citation family of corporate jets in Australia and New Zealand, and is an Authorised Cessna Service Centre for the region.

So no matter what your flight requirements, Flight Options is best able to tailor the service and the aircraft to meet your needs.

Service

Time in the air is only one aspect of your Flight Options experience. Our professional and courteous team will listen to your needs and deliver service excellence both in the air and on the ground. At Flight Options we can respond to your every travel requirement – 24 hours a day, 7 days a week.

Comfort

Our Cessna Citation business jets are leaders in their class with luxury interiors and latest innovative technologies. Our private and secure cabins offer luxurious, well-appointed interiors and amenities, and we will ensure your catering requests and on-board expectations are exceeded.

It makes good business sense

Utilising corporate charter makes sense when your tight schedule demands that you make the most of your time. Flight Options makes sense because it is one of the only charter companies in Australia that maintains their aircraft as an Authorised Cessna Service Centre.

Flight Options Corporate Jet Charter makes sense because you want to get home in time for dinner...
