

## Cessna Citation Mustang

Aeromil Pacific is proud to present to the Australian market Cessna Citation Mustang S/N 510-0269. This aircraft has only 50 hours total time being the ferry flight from the Cessna factory in Wichita, Kansas to the Sunshine Coast in Queensland.

This beautiful aircraft has been built to Australian specifications including a HF radio and we did equip the Garmin package prior to delivery with SVT (synthetic vision technology).

This Citation Mustang is particularly good value having a 2009 pricing schedule with a substantial saving over current new prices.

Our Mustang of course is under full warranty and is already enrolled in an engine and parts program.

Currently hangared on the Sunshine Coast, it awaits its new owner with all the substantial benefits that go with taking delivery of a new aircraft, just arrived in Australia.

*Steve Padgett, Managing Director, Aeromil Group of Companies*
