

## Cessna Citation Ultra

Aeromil Pacific is proud to present to the market Cessna Citation Ultra S/N 560-0320. This outstanding aircraft is now offered for immediate sale as the owners have again demonstrated their confidence in Cessna and Aeromil Pacific by upgrading to a new Citation.

Citation Ultra 320 is a quality aircraft, operated for many years by a fastidious corporate owner. It is equipped for Australian and international operations and has been maintained to the highest standards. The aircraft is offered with a fully paid up subscription to ProParts, the Cessna Aircraft Company parts program which provides tip to tail coverage and peace of mind for the new owner.

This Citation Ultra is an extremely rugged, reliable and durable platform capable of flying non-stop missions of up to 1,700 nautical miles and is an excellent short field performer. It is also able to operate in support of the resources industry as it is fitted with a gravel runway kit for operation into unimproved runways in remote areas.

Aeromil Pacific invites you to inspect Citation Ultra 0320. You will not be disappointed.

*Nick Jones, Director of Aircraft Sales, Aeromil Group of Companies*
